SUMMARY

Business and Data Analyst with four years of experience across financial services and industrial environments, specialising in data analysis, process improvement and business intelligence. Experienced in translating complex data and business requirements into structured processes, KPI reporting and analytical solutions. Combines hands-on data expertise with business–IT stakeholder coordination, supported by an M.Sc. in Project Management and Data Science.

PROFESSIONAL EXPERIENCE

Master's Thesis – Data & AI Solutions, *PowerCo SE* 09/2026 – Present | Salzgitter, Germany

Tech Stack: Python, SQL, Databricks, Vector Search, LangGraph, LLMs.

- Developing a hybrid RAG framework integrating document and database retrieval for enterprise knowledge access.
- Building Databricks pipelines to prepare structured and unstructured enterprise data for retrieval and evaluation.
- Orchestrating document, database and hybrid retrieval workflows using LangGraph.
- Evaluating data reliability, source coverage and traceability across retrieval workflows.

Data Analytics Internship, *PowerCo SE* 03/2026 – 08/2026 | Salzgitter, Germany

Tech Stack: SQL, Databricks, Python, Power BI, Power Query, DAX, Grafana.

- Assessed machine readiness across various battery-production processes by analysing traceability data and investigating data discrepancies.
- Transformed **200+ machine sensor parameters** into structured datasets in Databricks for validation and downstream analysis.
- Developed **multiple Power BI and Grafana dashboards** to monitor production KPIs and provide structured operational and management reporting.
- Designed data models and DAX measures to improve consistency and reliability across KPI reporting.

IT Demand & IT Portfolio Management Internship, 09/2025 – 02/2026 | Salzgitter, Germany
PowerCo SE

Tech Stack: Power BI, Power Query, Jira, Azure DevOps, Confluence, ServiceNow, Microsoft Excel.

- Assessed **15+ IT demands** based on business requirements, dependencies and priorities to enable structured project prioritisation and portfolio planning.
- Coordinated **10+ business and IT stakeholders across 7 departments** to clarify requirements, identify dependencies and align planning priorities.
- **Designed and documented a DPL process enhancement using BPMN and Confluence**, creating a structured process flow and supporting standardised execution.
- Consolidated project and demand information into structured management reporting for annual and five-year IT planning.

Data Analyst, *Bajaj Finance Ltd* 10/2021 – 07/2024 | Pune, India

Tech Stack: SQL, Python, Microsoft SQL Server, Salesforce, SOQL, Databricks, Power BI, Power Query.

- **Increased customer retention from 15% to 50%** by analysing churn, customer behaviour and drop-off patterns, identifying at-risk segments and translating findings into targeted retention initiatives.
- **Designed customer acquisition and segmentation initiatives contributing to 40% of monthly sales** by analysing customer data to identify high-potential segments and commercial opportunities.
- **Improved customer engagement by 20%** by translating campaign requirements into data-driven customer targeting workflows and Databricks data pipelines for cold-calling campaigns.
- **Reduced manual processing effort by 80%** by identifying repetitive reporting activities and automating recurring Databricks workflows for timely KPI and business reporting.
- Performed **exploratory and statistical analysis** on large customer datasets to identify trends, relationships and business opportunities across acquisition and retention processes.
- Investigated **customer onboarding and master-data quality issues** using SQL, Salesforce and SOQL, improving data reliability for downstream analytics and reporting.

EDUCATION

M.Sc. in Project Management and Data Science 10/2024 – Present

Hochschule für Technik und Wirtschaft Berlin, Germany

Bachelor of Engineering in Mechanical Engineering 06/2017 – 05/2021

Savitribai Phule Pune University, Nashik, India

SKILLS & TOOLS

Data Analysis & BI: SQL | Power BI | Advanced DAX | Power Query | Statistical Analysis | Exploratory Data Analysis (EDA) | KPI Analysis | Data Validation | Microsoft Excel

Data Management & Engineering: Databricks | Microsoft SQL Server | ETL/ELT | Azure Data Lake Gen2 | Data Integration | Data Quality | Dimensional Modelling

Business & Process Analysis: Requirements Analysis | Process Analysis | BPMN | Process Improvement | Stakeholder Management | Management Reporting | Knowledge Management

AI & Automation: Python | LLMs | RAG | LangGraph | Vector Search | Workflow Automation

Project & Collaboration Tools: Jira | Confluence | ServiceNow | Azure DevOps

CERTIFICATION

Google Data Analytics Professional Certificate
